*for the successful completion of the course*

**Targeted - An introduction to cybersecurity**

## Targeted - An introduction to cybersecurity

IFRC

Welcome to the International Federation of the Red Cross and Red Crescent Societies (IFRC) online course on **cyber security, Targeted**.

The aim of this course is to increase your awareness of information security, give you an insight into the dangers that exist, and provide you with the tools to make the right decisions at difficult times to ensure we all remain safe from increasing threats.

You're probably thinking this sounds like pretty standard training. Maybe you're thinking it's going to be similar to courses you've done before. And you're almost certainly thinking you know what's about to happen.

**Think again...**

This online course substitutes the "*How can we keep our information safe?*". This new online course is available in English, Arabic, French and Spanish.

*Online Course - 0 Hours 30 Minutes*

---

*This online learning was completed by Abhijit Biswas on 09 December 2024.*
